Work Experience

Globant – NodeJS Developer (2024 – present)
- Working for a banking account
- Fully dedicated in NodeJS development
- Working with **NestJS**, **MongoDB**, **RedHat OCP**
- Working in a high-security environment

Woxi – Fullstack Developer (2019 – 2024)
- Working in an Agile team of 6 developers
- Using **Vue**, **AngularJS**, **Vite**, **NodeJS**, **MongoDB**, **ExpressJS**
- My job in Welii gives me the chance to build and deliver full features including frontend development, security, database integration and sometimes even feature design.

Pentametrix – Web Developer (2016-2019)
- Worked as a developer using AngularJS and NodeJS.
- Also worked building static websites for marketing purposes.
- This company later merged with Woxi, which decided to bring me on board as a full-time developer.

Welii – Communications Specialist (2015 – 2019)
- Brought web and email heavy marketing strategies to the company
- Worked delivering a variety of fully developed websites
- Maintained a growing and complex **Wordpress** site using **JavaScript** for a lot of customized interaction
